AC OUTDOOR PRODUCTS

220V AC LED STREET LIGHTS (PREMIUM MODELS)

As compared to the regular sodium and halogen lamps, these LED fixtures consume much less power, emit less heat and are highly durable while still giving a similar light output. Uses of these street light fittings guarantee lower electricity bill, maintenance free operation and superior clarity of light.

Residential, Society, small parking street lighting

Item	SL-12	SL-18	SL-24	SL-30		
Net Power	12W	18W	24W	30W		
LED Efficacy		>135 lm/watt				
Recommended Pole	5m	5m	5m	5m-6m		
Pole Distance	8-10 m	10-12 m	15-20 m	15-20 m

GARDEN LIGHT/Bollard Light

LED Garden Light	GL-20
Feature	Specifications
LED Power	20W/30W
Lumen Output	1800-3000
Voltage Range	90-270 V AC
Life	60,000 hours
Inbuilt Power Factor Correction	Yes, >0.85

Garden Lights is a LED based decorative model used in parks, gardens, campus areas.

SOLAR CENTRE PRO

SOLAR LED STREET LIGHTS (PREMIUM MODELS)

These solar driven LED streetlights produce powerful illumination and come with an easy installation without hassles of digging, laying down of cable wires or need of transformer distribution points etc. They are ideal for villages, remote locations, rural areas, and rough terrain etc. where electric supply is not easily available.

Item	SSL-6

LI-ION BASED SOLAR PRODUCTS

- Next generation Solar Technology
- Theft proof Idle for rural areas
- Integrated maintenance free LiON Battery
 - Low idle current
 - Upper and deep discharge cutoff
- Intelligent circuitry
 - Automatic dimming
 - Autonomy without adding extra battery/panel cost
 - Integrated sensor provides 10 hour operation
- Simple, low cost installation
 - 20-40% lower cost than lead acid based solutions
- IP65 compliant
- 4 stage battery indication level; automatic dusk to down operation with power saving mode; battery over voltage and low voltage protection; Repairable

• Motion sensor available on request

AFFORDABLE SOLAR HOME LIGHTING SYSTEM- NESSAHOME

Features:

- Inbuilt intelligence for dimming control using micro controller based programming.
- The latest LED Technology to give out pure white Hazardless Light.
- Manual dimming Control
- Indicator LED for Low Battery and Solar Charging Easy Installation.

Product Range:

- two LED tubelight, one mobile charger
- Eco Friendly Chula
- FAN

INNOVATIVE SOLAR LANTERN

Features

- Lightest Solar Lantern in the industry
- Robust toughened glass based solar panel
- SMD type latest LED technology
- 3/6 hours of grid/solar charging of LiON battery
- Intelligent circuitry
 - 2 set points- 4 hours and 8hours backup
 - Can be run continuously with adaptor when grid is available
- Diffused glass around LED to protect eye from direct exposure
- LED indicator which changes colour based on state of charge
- External AC/DC adaptor option with Nokia small pin compatibility
- 1 year warranty

AFFORDABLE SOLAR HOME LIGHTING SYSTEM

Features

- Smart Electronics
 - Mobile charging
 - Low idle current for extended battery life
 - Backup even in cloudy conditions, 2.5/5hr backup
- Integrated maintenance free LiON Battery
 - Upper and deep discharge cutoff
 - Replaces 5W CFL
- Multi-Purpose-reading, table lamp and outdoor
- 1 year warranty
- Variants
 - 2x1 solar bulb, Solar bulb + mobile

SOLAR POWER PACKS

We specializes in designing and installing Solar Power Packs for industries, residential societies, individual houses, campuses etc. The system installation is done so as to offer maximum economic value to the customer.

Being MNRE channel partner, Nessa can help the customer avail subsidies as well as seamless and smooth service support.

SOLAR PUMP

- Available in 0.5 HP to 7HP
- Integrated MPPT (Maximum power point tracking)
- High efficient solar photovoltaic panels with minimum 25 year service life
- High sand protection
- High wear resistance
- Robust galvanize steel mounting structure
- Virtually no maintenance cost

INDUSTRIAL LIGHTING PRODUCTS

LED FLOOD LIGHTS

In recent years company has specialized in area lighting applications especially high mast tower applications. Our LED flood light products are suitable for façade highlighting, party plots, play grounds, container yards, open storage area etc.

Area lighting, building highlighting, façade lighting

Model	FL-25	FL-30	FL-45
LED Type	SMD	SMD	SMD
Net Power	25W	30W	45W
LED Efficacy	> 135 lm/watt		
Recommended Height	4m	4-5m	5-6m
Weight	1.2 kg	1.6 kg	1.6 kg

Area lighting, building highlighting, façade lighting

Item	FL-60
LED Type	SMD
Net Power	60-65W
LED Efficacy	>135 lm/watt
Recommended Height	7-9 m
Weight	2.1 kg

Party plot, playground lighting application

Item	FL-150
LED Type	SMD/COB
Net Power	150W
LED Efficacy	> 115 lm/watt
Recommended Height	12-20 m
Weight	5.1 kg
* Model available in multi	LED also

Party plot, playground lighting application

Item	FL-120
LED Type	SMD
Net Power	110-120W
LED Efficacy	>135 lm/watt
Recommended Height	9-12 m
Weight	3.3 kg

Highmast Tower Application lighting application

Item	FL-200		
LED Type	SMD/COB		
Net Power	200-210W		
LED Efficacy	>115 lm/watt		
Recommended Height	20-40 m		
Weight	7 kg		
* Model available in multi LED also

WELL GLASS FITTING

LED wall mounted WELL GLASS LIGHT luminaire comprising of die-cast housing with powder coating. Fully pre-wired using a low loss electronic constant current LED driver having an improved power factor and low Total Harmonic Distortion (THD).

We manufacture non-flame proof well glass fittings and retrofit kits for flampe proof fittings.

Feature	WELL-30	WELL-40	WELL-75
LED Power Consumption	30W	40W	75W
LED Efficacy		>115 lm/watt

LED tube light are environment-friendly semiconductor lighting which possesses a number of advantages over the conventional ones such as low power consumption, no flashing, no need of choke or starter, soft light which is favorable for the user's eyesight and physical health.

Compared to CFL bulbs, LED bulbs offer more than 70% power savings and have a very long life. With proper thermal management, we have ensured that our bulbs provide same light output year over year.
